

## NTC thermistor

Code:	Resistor + 25°C 1 kOm
NTC-K45-1.0	4,7 kOm
NTC-K45-4.7	6,8 kOm
NTC-K45-6.8	10 kOm
NTC-K45-10	

Temperature sensors with M3 thread. Aluminum housing, low thermal resistance, electrical insulation. They are screwed directly to housings, radiators, etc. They are used in compensation, measurement and temperature control systems.

Range of measured temperature. : от - 55°C до + 125°C

Resistance error Max. power	: ± 10%
Conclusions	: 450 мВт
	: 0,6 x 30 мм
